WORK EXPERIENCE

Frontend Developer

05.2021-06.2023 | CLIMBIUM (e-commerce)

- Contributed to the development of the CLIMBIUM e-commerce platform using **React**, **Redux**, **TypeScript**, **JavaScript**, and other cutting-edge technologies.
- Integrated **Stripe** and **Node.js** for secure and PCI-compliant payment processing, providing customers with a seamless and secure checkout experience.
- Utilized **Redux** for state management to ensure a consistent and responsive cart experience.
- Employed **Jest** and **React Testing Library** for unit and integration testing, ensuring code reliability and maintaining high test coverage.
- Collaborated with a team of developers using **Git** for version control, ensuring efficient code collaboration and tracking of changes.

Frontend Developer

11.2018-12.2022 | KOGENERACJA S.A.

- Utilized **Vue.js**, **Vuex**, **Nuxt.js**, **TypeScript**, **JavaScript**, **GIT**, **Vitest**, **HTML**, and **CSS** to design, develop, and maintain the company's internal website, ensuring seamless functionality and user-friendly design.
- Demonstrated expertise in ensuring the reliability and functionality of Vue.js applications by conducting comprehensive testing using **Vitest**, a **Vue.js testing framework**.
- Introduced **interactive** features such as the ability to log in, post comments on articles, and engage in discussions, fostering employee engagement and collaboration.
- Collaborated closely with cross-functional teams, including **HR**, **IT**, and **content creators**, to gather requirements and ensure alignment with organizational goals.

Frontend Developer

06.2016-05.2021 | Freelancing

- Successfully completed a series of freelance projects encompassing **React**, **Vue**, **TypeScript**, and **WordPress** to create customized websites for clients.
- Leveraged **React** and **TypeScript** to build dynamic and interactive user interfaces, enhancing the overall user experience for each project.
- Implemented **responsive design** principles to ensure seamless functionality across different devices.
- Delivered a range of web solutions, including blogs, personal websites, and small business sites, tailored to meet clients' specific requirements.

PERSONAL PROJECTS

- Portfolio** - fully responsive Single Page App
- Todo app** - plan your day and complete your daily tasks
- Weather app** - check out the weather around the world!
- Furniture app** - choose the best home furnishings using the Furniture app
- Meme Generator** - Elon Musk would be delighted!
- Fast Typing Game** - see how many words you can correctly rewrite in one minute
- E-Photo** - add pictures to your cart, then choose the size and send the order!
- Dashboard Chrome extension** - similar to Momentum
- Tenzies game** - roll the dice to the same number as quickly as possible.
- Notes** - write and delete your notes
- Snake & Pacman games** - because of sentiment

ABOUT ME

I'm a passionate frontend developer with a deep affection for Vue and React, ready to collaborate with ambitious and amazing teams on exciting projects

EDUCATION

Power Engineering Engineer's degree

Wrocław University of Science and Technology (2014-2018)

Electrical Engineering Master's degree

Wrocław University of Science and Technology (2019-2022)

Software Engineering

Scrimba, CS50, FCC, Udemy

LANGUAGES

- English: C1
- Polish: Native

INTERESTS

- Science, technology, AI
- Self-development
- Sports (calisthenics, swimming, cycling, climbing)
- Traveling
- Sailing
- Chess

I also consent to processing of my personal data for the purposes of any future recruitment processes.
